

FLYING COLORS

Multi-Day Class

Materials List

Understand the process of creating your own original design quilt, complete with free-form geese creating motion and adding light. It's simple and easy with a ruler and a compass, even for those of you who hate math. This class is designed for the student that who desires an in-depth experience, exploring all aspects of creating innovative geometric quilts. Students will learn design, color selection, use of contrast and scale, and stitching techniques that include freezer paper foundation piecing.

Land of the Midnight Sun © 2009

The list below includes the minimum fabric requirements. I strongly encourage you to bring a larger selection of fabrics to enable more creative freedom and the ability to develop a larger design. As with all quilting projects, choosing good quality fabrics will ensure easier sewing and a more successful finished product. Hand-dyed and hand-painted fabrics, and batiks work well for this type of quilt. Think, "Prints that read as solids" when making your selection. Choose 100% cottons and launder them before class. See you in class!

\$7.00 workbook fee.

2 yards focus fabric

1 ½ yards each of two different background fabrics

½ yard each of 20-30 different fabrics - bring an assortment of color values and prints.

A pad of large drawing paper (can be freezer paper)

Compass with extender (available for purchase in class)

Flexible Curve (24" or longer preferred - available for purchase in class)

18" transparent ruler

Add a Quarter Ruler (optional)

4" square ruler

Freezer paper

1" x 6" or 1" x 12" transparent ruler

Masking tape (pale color)

Mechanical pencils (2)

Good eraser

Good Eraser

Rotary cutting equipment

Paper and fabric scissors

Basic sewing supplies

Classroom Needs:

The classroom will function best if there is one iron for every 2-3 students. Classroom must be equipped with six foot tables with no more than two students to a table. Be certain that there are enough electrical outlets and extension cords to provide power to each sewing machine and iron.
